FOUNDATION**

LIMBS FOR LIFE **GRATITUDE REPORT** 2022

With your help, Limbs for Life marked 27 years in 2022 funding over \$1.2 million in new prosthetic limbs and sharing thousands of parts and components to assist amputees in need. So many of you, our friends and donors, stepped up to help in the past year. These milestones are the result of your kindness, care and support. You are restoring lives!

On behalf of those whose lives were changed because of you, Thank You!

WWW.LIMBSFORLIFE.ORG

Our Mission & Vision

Limbs for Life continues to provide fully-functional prosthetic care to individuals without other resources for a limb and raise awareness of the challenges facing amputees.

Our vision is access to quality prosthetic care for all amputees.

We are so grateful for your support. To further our mission and vision, give now at limbsforlife.org

Goals & Accomplishments

GOAL: To connect amputees in need with access to quality prosthetic care as quickly as possible in order to minimize disruption of their daily lives

2022 ACCOMPLISHMENTS

- ✓ 367 amputees in the U.S. received new prosthetic limbs
- ✓ 388 total new limbs provided, including bi-lateral limb amputees
- ✓ 1,170 clients received information & referrals
- ✓ 807 amputees received prosthetic parts and components globally
- ✓ 2,354 total unduplicated amputees received services

GOAL: To collect and distribute donated prosthetic supplies and parts to amputees in need

2022 ACCOMPLISHMENTS

- ✓ 7,624 prosthetic parts were received from 298 donors in 35 states
- ✓ 6,515 donated parts were distributed to amputees in 28 states and 21 countries, including a collaborative project with other non-profits to assist in Ukraine

“

I am able to go to the studio and I'm making music again. Thank you for all your help!

~ Takiyah

I can't express how much it means to me to be able to walk. I am volunteering at a community garden and at the VA. Thank you so very much for helping me. God Bless You. I'm so lucky to have you all.

~ Mike

”

Client Stories

Takiyah, VSA Prosthetics, Marietta, Georgia

*Takiyah (19) is working to attend cosmetology school and get her driver's license. She lost her leg as a result of trauma last summer and her plans were put on hold. She was referred to Limbs for Life by the skilled team at **VSA Prosthetics**. Takiyah has a brighter outlook now that she has her new limb and is optimistic about her future. Currently residing with a friend, Takiyah wants to be on her own and move forward now that she is walking again.*

Alvis, New Life Brace & Limb, Webster, Texas

Alvis (56) is a contractor and handyman in Texas. After his limb loss, he was unable to work and relied on his family for support. Since receiving his new prosthesis in December, Alvis is once again mobile and independent and working towards regaining employment. He is pictured with Brent White, his prosthetist at New Life Limb & Brace.

Christian - Baker O & P, Temple, Texas

Motivation comes in many forms. For Christian, being able to get outside, play with his young grandson, and contribute to his family support and care are big motivators. Following loss of his limb in early 2022, his activities were limited. After receiving his new limb, Christian is all smiles and thriving; grateful to regain his independence.

Edna – Hanger Clinic, Flowood, Mississippi

"Limitations are depressing and I want to be independent, not a burden." With her new limb, Edna can continue to live alone and care for herself, get outside and garden, and go to church. Social isolation encountered after limb loss is a significant barrier to recovery and rehabilitation. Removal of this barrier through provision of a prosthetic limb allows the individual to get out and enjoy the company of others, engage in their community and resume activities they enjoyed before limb loss, all crucial to positive outcomes for the amputee and their family.

Your contributions helped restore lives and families.

Our mission is just as relevant today as it was at our founding in 1995. With limb loss increasing at a rapid rate, our work to restore amputees in need is even more critical now.

We are grateful for the generosity of so many devoted to our cause. Whether foundations, corporations, organizations, students or individuals, YOU are restoring lives and families with your support.

Our unique network of clinic partners is vital to the ability of Limbs for Life to deliver services directly to clients, wherever they reside. These partnerships are stronger than ever, both in the U.S. and abroad.
